TEXAS FARM PRODUCTS COMPANY
NACOGDOCHES, TEXAS

CAUTION: Changes in feed should be made gradually. Feed should be stored in a well-ventilated, dry area that is protected from rodents and insects. Feed is perishable. Do not feed moldy or insect-infested feed as it may cause illness or death.

HEAVY DUTY HORSE & CATTLE

The original all grain sweet feed developed by the founder of our company over sixty years ago. It has remained as the standard of quality throughout Texas and Louisiana.

FEATURES

- * High energy - 1642 Kcal/lb
- * 10% Protein
- * Mixture of quality corn, oats and molasses

BENEFITS

- * Diverse - formulated for horses and cattle.
- * Molasses improves palatability and eliminates dust.
- * Economical - only one feed is needed for both horses and cattle.

INGREDIENTS

Whole oats, chopped yellow corn, cane molasses, soybean meal, calcium carbonate, dicalcium phosphate, salt.

FEEDING DIRECTIONS

Feeding Cattle

Feed Lone Star Heavy Duty Horse & Cattle Feed at the rate of 1 to 2 lbs. of feed per 100 pounds of body weight per animal per day with adequate good quality hay or grazing.

Calves Being Fitted For Show or Slaughter

1st Day - Feed one pound of Lone Star Heavy Duty and Lone Star Calf Developer per calf per day plus free choice good quality hay.

2nd Day - Increase the mixture of Lone Star Heavy Duty and Lone Star Calf Developer to two pounds per calf per day and continue to feed free choice good quality hay.

3rd Day - Feed three pounds of each feed mixed together per calf per day. Continue to feed free choice good quality hay.

4th Day - Feed four pounds of each feed mixed together per calf per day. Continue to feed free choice good quality hay.

5th - 10th Day - Restrict hay to four pounds per head per day. Continue to feed four pounds of each feed mixed together per day.

After 10 Days - Mix equal parts of Lone Star Heavy Duty and Lone Star Calf Developer. Feed each calf as much of the mixture as it will clean up in 30 minutes mornings and evenings. Restrict hay to four pounds per head per day.

Feeding Horses

Light Work - Feed 1/2 pound of Lone Star Heavy Duty Horse and Cattle Feed and a minimum of one pound of good quality hay per 100 pounds of body weight per horse per day.

Medium Work - Feed 3/4 pound of Lone Star Heavy Duty Horse and Cattle Feed and a minimum of one pound of good quality hay per 100 pounds of body weight per horse per day.

Heavy Work - Feed one pound of Lone Star Heavy Duty Horse and Cattle Feed and a minimum of one pound of good quality hay per 100 pounds of body weight per horse per day.
