TEXAS FARM PRODUCTS COMPANY  
NACOGDOCHES, TEXAS

## ORIGINAL

For dogs with increased energy requirements.

### FEATURES

- \* 1726 Kcal/lb
- \* 27% Protein/13% Fat
- \* Meets AAFCO Requirements
- \* No Soybean Meal
- \* Naturally Preserved with Vitamins C & E

### BENEFITS

- \* Extra Protein and Energy for Working Dogs
- \* Stool Control for Dogs Kept on Hard Surfaces
- \* Superior Results from Your Dog
- \* Nutritionally Complete--Can Be Fed As The Sole Diet

Star Pro® Premium Original Formula is formulated to meet the nutritional levels established by the Association of American Feed Control Officials (AAFCO) Dog Food Nutrient Profile for all life stages.

### GUARANTEED ANALYSIS

Crude Protein, minimum	27.00%
Crude Fat, minimum	13.00%
Crude Fiber, maximum	3.50%
Moisture, maximum	10.00%
Omega-6 Fatty Acids, minimum	2.00%*
Omega-3 Fatty Acids, minimum	0.30%*

\*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profile.

### INGREDIENTS

Poultry by-product meal, ground yellow corn, ground whole wheat, poultry fat (preserved with mixed tocopherols and ascorbyl palmitate), fish meal, flaxseed, beet pulp, natural chicken flavor, dicalcium phosphate, potassium chloride, salt, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, vitamin B12 supplement, riboflavin supplement, dl-methionine, niacin, calcium pantothenate, choline chloride, menadione sodium bisulfite complex (source of vitamin K activity), folic acid, biotin, thiamine mononitrate, pyridoxine hydrochloride, sodium selenite, calcium iodate, ferrous sulfate, manganese sulfate, zinc sulfate, copper sulfate.

### FEEDING SUGGESTIONS

**Adult Dogs:** The amount of food required each day will vary by breed, activity level, temperament, and climate, and should be adjusted accordingly using the chart below as a guide. In most cases, once-a-day feeding is sufficient. If your dog prefers twice-a-day feeding, feed 1/2 of the daily amount in the morning and the other 1/2 in the afternoon. If preferred, one part warm water can be added to three parts Star Pro immediately before serving.

#### WEIGHT OF DOG

Up to 12 lb  
12 - 25 lb  
25 - 50 lb  
50 - 75 lb  
75 - 100 lb

#### DAILY AMOUNT\*

Up to 1 cup  
1 - 2 cups  
2 - 3 cups  
3 - 4 1/3 cups  
4 1/3 - 5 1/3 cups

Over 100 lb, add 1 cup for each 25 lb of weight.

\*One standard 8-oz measuring cup holds approx. 4 ounces of food.

**Puppies:** Start puppies on moistened Star Pro as soon as they begin to nibble on solid food (usually 3 to 5 weeks of age). While they continue nursing, keep moistened Star Pro available at all times until fully weaned at 6 to 8 weeks of age. After weaning, Star Pro may be fed moist or dry. Feed puppies up to 6 months of age all of the Star Pro they can consume. If fed dry, Star Pro may be kept before puppies at all times.

**Gestation and Lactation:** Consumption will vary; therefore, feed the amount required to maintain good body condition. Food may need to be available at all times.

**Water:** Provide a source of fresh, clean water at all times.

**CAUTION:** Changes in pet food should be made gradually. Pet food should be stored in a well-ventilated, dry area protected from rodents and insects. Pet food is perishable. Do not feed moldy or insect-infested pet food to animals as it may cause illness or death.
