FEEDING DIRECTIONS

HORSES: Feed 1 pound per 100 pounds of body weight as a maintenance ration for adult horses. Divide the daily feeding amount into two or three equal portions. Provide plenty of good quality hay or grazing free choice along with a supply of fresh, clean water.

CAUTION: Feed should be stored in a well-ventilated, dry area protected from rodents and insects. Feed is perishable. Do not feed moldy or insect-infested feed to animals as it may cause illness or death.
