FEEDING DIRECTIONS

The recommended feeding rate for TRACK STAR® 3 is shown in the chart below. Do not feed free choice. If you feed by dry measure, periodically weigh the feed to ensure that the proper amount is being fed. Observe the condition of your horse over a period of time. The recommended feeding rates may be increased or decreased by 10% to keep your horse in the desired condition. Do not exceed 10% above the recommended rate.

Changes in feed or feeding rate should be made gradually over several days. Changes in feeding rate should not exceed 1 pound per day. Feed at regular times at least twice daily. If horse is hot, excited, or ill, delay feeding. Do not allow horse to over-consume or eat rapidly.

An effective internal parasite control program is essential to your horse's health. Observe your horse's condition regularly. Consult your veterinarian if any problems arise.

NURSING FOALS

Feed Track Star® 3 free choice as a creep feed. Provide access to quality hay or pasture. Do not allow mares to consume this feed free choice. Do not allow foals to consume more than 2 lbs. of this feed per 100 lbs. of body weight per day.
