TFP NUTRITION
NACOGDOCHES, TEXAS

BENEFITS

- * Highly digestible nutrients maintain body condition in senior horses.
- * Excellent sources of fiber for a healthy digestive tract.
- * Promotes a healthy immune system.
- * Probiotics replenish beneficial microorganisms in the digestive tract for improved feed efficiency.
- * Improved trace mineral utilization.
- * Fortified with essential B vitamins which may no longer be synthesized in senior horses.
- * Organic selenium is more effectively absorbed by older horses.

FEATURES

- * 14% protein
- * Added fat
- * Soyhulls and alfalfa
- * Vitamin C, vitamin E, and organic selenium
- * Added lysine
- * Probiotics
- * Chelated sources of copper, zinc, iron, and manganese
- * Fortified with B vitamins

INGREDIENTS

Processed grain by-products, plant protein products, roughage products (19%), forage products, grain products, cane molasses, corn oil, soybean oil, soy lecithin, dried whey, calcium carbonate, dicalcium phosphate, salt, dried *Lactobacillus acidophilus* fermentation product, dried *Enterococcus faecium* fermentation product, dried *Aspergillus oryzae* fermentation extract, L-lysine, DL-methionine, L-ascorbyl-2-polyphosphate (source of vitamin C), vitamin A supplement, vitamin D3 supplement, vitamin E supplement, vitamin B12 supplement, menadione sodium bisulfite complex (source of vitamin K activity), riboflavin supplement, niacin supplement, calcium pantothenate, choline chloride, folic acid, thiamine mononitrate, pyridoxine hydrochloride, biotin, selenium yeast, zinc methionine complex, zinc sulfate, iron amino acid chelate, ferrous sulfate, iron oxide, manganese amino acid chelate, manganese sulfate, copper amino acid chelate, copper sulfate, ethylenediamine dihydroiodide, calcium iodate, cobalt carbonate.

FEEDING DIRECTIONS

The recommended feeding rate for Track Star® Senior is shown in the chart below. Do not feed free choice. Provide plenty of good quality pasture along with a source of fresh, clean water. If you feed by dry measure, periodically weigh the daily feed to ensure that the proper amount is being fed. Observe the condition of your horse over a period of time. The recommended feeding rates may be increased or decreased to keep your horse in the desired condition. Changes in feed or feeding rate should be made gradually over several days. Changes in feeding rate should not exceed 1 pound per day. Feed at regular times at least twice daily. If horse is hot, excited, or ill, delay feeding. Do not allow horse to over-consume or eat rapidly. An effective internal parasite control program is essential to your horse's health. Observe your horse's condition regularly. Consult your veterinarian if any problems arise.

DAILY FEEDING CHART

WEIGHT OF HORSE	800	1000	1200
Track Star® Senior (min. lb/day)			
Maintenance	10-12	12-14	14-16
Light Work	12-14	14-16	16-18

Good quality hay may be fed along with Track Star Senior. The amount of feed can be reduced by approximately 1 pound for every 2 pounds of hay.

In cases of extreme dental problems, Track Star Senior may be soaked with warm water to form a mash. Allow to soak for several minutes until feed is in desired consistency.

CAUTION: Feed is perishable. Feed should be stored in a well-ventilated, dry area that is protected from rodents and insects. Do not feed moldy or insect-infested feed as it may cause illness or death.
