Iodine (I), minimum.....	3 ppm
Cobalt (Co), minimum.....	4.5 ppm
Vitamin A, minimum.....	50,000 IU/lb
Vitamin D ₃ , minimum.....	12,300 IU/lb
Vitamin E, minimum.....	10 IU/lb

INGREDIENTS

Molasses products, plant protein products, animal protein products, roughage products, hydrolyzed vegetable oil, magnesium oxide, salt, calcium oxide, calcium sulfate, phosphoric acid, vitamin A supplement, vitamin D₃ supplement, vitamin E supplement, sodium selenite, manganese sulfate, zinc sulfate, ferrous sulfate, copper sulfate, ethylenediamine dihydroiodide, and cobalt carbonate.

FEEDING DIRECTIONS

Feed free choice as a supplement to horses and cattle grazing adequate forage.

- Provide a source of fresh, clean water at all times along with Lone Star Kal-Phos 12-12 Mineral Supplement. Consumption of this block should be approximately 1 to 2 pounds per head per day. The following guidelines should be followed to ensure adequate consumption:
- Provide one 200 pound block for every 10 to 13 animals.
- Place blocks near water source or loafing areas. Make blocks available in more than one location in large pastures. If consumption is too high, move the blocks farther away from the water source and loafing areas, reduce the number of blocks if necessary to control consumption.
- Maintain a consistent supply of blocks. Do not feed to deprived animals as overconsumption may result.

CAUTION: Store in a dry area. Observe and follow label directions.
