CATTLE FEEDS

BREEDER MINERAL

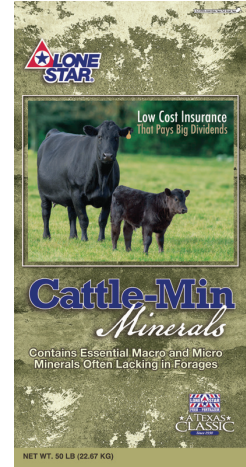

A self-limiting pasture supplement with chelated sources of trace minerals designed to supply the nutrients most often deficient in forages.

FEATURES

- * 3:1 Calcium to Phosphorus Ratio
- * 12% Salt
- * Chelated Trace Minerals - Zinc, Manganese, Copper, & Cobalt
- * Selenium Yeast
- * Fortified with Vitamins A, D, & E
- * Weather Protectant

BENEFITS

- * Chelated Trace Minerals and Selenium Yeast Provide Optimum Bioavailability
- * Fewer Breeder Problems
- * Healthier Calves at Birth
- * Heavier Weaning Weights
- * Supports Overall Herd Health
- * Weather Protectant Reduces Hardening and Caking - Less Waste

GUARANTEED ANALYSIS

Calcium (Min)	15.00%	Copper (Min)	2,000 ppm
Calcium (Max)	18.00%	Iodine (Min)	150 ppm
Phosphorus (Min)	5.00%	Manganese (Min)	3,600 ppm
Salt (Min)	11.00%	Selenium (Min)	26.4 ppm
Salt (Max)	13.20%	Zinc (Min)	6,000 ppm
Magnesium (Min)	3.00%	Vitamin A (Min)	200,000 IU/LB
Potassium (Min)	0.10%	Vitamin D-3 (Min)	20,000 IU/LB
Cobalt (Min)	25 ppm	Vitamin E3 (Min)	200 IU/LB

INGREDIENTS

Calcium Carbonate, Calcium Phosphate, Processed Grain By-Products, Salt, Magnesium Oxide, Molasses Products, Vegetable Oil, Hydrolyzed Yeast, Zinc Hydroxychloride, Manganese Sulfate, Plant Protein Products, Zinc Proteinates, Manganese Proteinates, Basic Copper Chloride, Copper Proteinates, Sodium Selenite, Ethylenediamine Dihydroiodide, Cobalt Proteinates, Iron Oxide, Selenium Yeast, Vitamin E Supplement, Vitamin A Supplement, Artificial Flavor, Vitamin D3 Supplement.

FEEDING DIRECTIONS

Lone Star Breeder Mineral is formulated to be self-fed to beef cattle on pasture.

Mature beef cattle should consume an average of 4 ounces per head per day. Provide one covered mineral feeder for every 20 to 30 animals. Locate each mineral feeder near a clean, fresh source of water. Mineral consumption levels will vary depending upon the mineral status of the animals. Provide salt free choice separately at all times along with a source of fresh, clean water.

CAUTION: Use as directed. Consumption of selenium should not exceed 3 mg per head per day.

WARNING: This product, which contains added copper, should not be fed to sheep or any species that have low tolerance to supplemental copper.
